Computer Science  
Tibiscus University, Timișoara  
2017 - 2020

**Baccalaureate**  
Informatics  
Grigore Moisil HS, Timișoara  
2012 - 2016

## PROFILE

QA Engineer with nearly 6 years of experience across API testing (REST and GraphQL), mobile testing, and performance testing. Currently testing three distinct products at a UK-based client: a no-code workflow automation platform, an HRMS application (web and mobile), and an RTLS system. Works across the full process, from writing test cases and documentation to investigating bugs and signing off releases.

## PROFESSIONAL EXPERIENCE

- QA Engineer** Sep 2024 - Present  
**Sense Workplace Ltd** 1 yr 8 mo
  - API testing with Postman, Swagger, and Altair across REST and GraphQL endpoints; automated collection maintenance and request/response validation across multiple environments.
  - End-to-end testing of a no-code workflow automation platform: visual workflow builder and runtime, third-party service connectors, authentication flows, and a multi-tenant internal admin.
  - Cross-platform testing of the HRMS app (web, iOS, Android) including AI/LLM feature validation; hardware-software integration testing for the RTLS product covering proprietary gateways, third-party tags, and KKM sensor end-to-end flows.
  - LLM-driven test case authoring using Claude Code, Playwright MCP, and a custom skill fed with user story and Figma UI context, producing Xray-ready test cases and increasing coverage throughput.
  - AI context architecture via a structured CLAUDE.md for reliable agent interactions; bug investigation with Chrome DevTools and Azure Monitor; QA documentation in Jira/Xray and Confluence.
- QA Analyst** May 2023 - Mar 2024  
**Internet Marketing On Line SRL** 10 mo
  - Functional, visual, and UAT for a gambling platform and casino games.
  - Manual black box testing of slot machine games to identify and report bugs and visual defects.
  - Automated repetitive data manipulation tasks using Python.
- Business Technical Support Specialist** May - Aug 2022  
**Bitdefender SRL** 3 mo
  - First-level support for GravityZone. Used VMware to reproduce and troubleshoot client-reported issues.
- System Administrator** Feb 2020 - May 2022  
**ATOS IT Solutions and Services SRL** 2 yrs 3 mo
  - File services for international clients on Windows Server 2008/2012: restoration, DFS share permissions, and Active Directory management.
  - Automated repetitive file share tasks using PowerShell.
  - Operated within the ITIL framework, consistently meeting client SLAs.
- Web Development Intern** Nov 2016 - Oct 2017  
**infin - Research & Development SRL** 11 mo
  - Built and maintained websites and web app components using HTML, CSS, JavaScript, PHP, MySQL, and WordPress.
  - Implemented REST APIs for automated SMS and voice calls; developed a proof-of-concept IVR system.
  - Linux-based web server deployment and monitoring; Python scripting for backend task automation.
